

Engineered with active people in mind.

Developed for people who move, the Sundash Performance Tanning line appeals to an active lifestyle tanner with a no-nonsense attitude and a keen focus on quality. Three professionally designed tanning units complete the Sundash Performance Tanning Series.

While the products' styling is encased in a simple, sleek, and ultra contemporary design, the SUN DASH 332-PRO, SUN DASH 332-PRO-1 and SUN DASH 252-Radius are powerful tanning units that are enduring and consistently dependable.

The Sundash Performance Tanning Series. It's a perfectly orchestrated combination of brawn, beauty and brains.

Timing System

- Features automatic delay and post session cooling
- Controls session length in minutes
- Logs lamp hours and session count
- LED timer readout within customer's field of vision

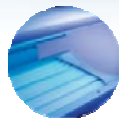

External Cooling System

- Optional super-power body cooling fan has adjustable speed
- Rheostat control system
- Ease of operation
- Maximum cooling comfort

Optimized Footprint

- Design is optimized to fit small spaces
- Recommended room size is 7 ft. x 8 ft.

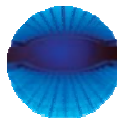

Extended Tanning Surface

- Unique crescent staggered lamp configuration
- Extended usable tanning surface up to 15%
- Expansive tanning area maximizes lamp efficiency and total effectiveness of the unit

Contemporary Design

- Clean, modern and sleek
- Enhances any salon interior
- Taller base engineered for easy and comfortable accessibility

Acrylic Panels

- 0.170 inches thick
- Highest level of UV sanitation
- Expansive design and forming process strengthens molecular structure
- Body weight is distributed evenly over entire acrylic shield
- Extended life by eliminating uneven wear

252-Radius

Some busy customers will always prefer a stand-up tanning unit. And the SUN DASH 252-Radius delivers a beautifully even, full-body tan in a 12-minute exposure schedule for tanners who are on the go.

Photogeometrically engineered to provide a flowing, open-air tanning environment, the SUN DASH 252-Radius easily accommodates all of your customers' tanning preferences. Now, even the tallest tanning customer can get an evenly balanced tan from head to toe.

With over 6 feet of tanning power, the SUN DASH 252-Radius is equipped with 52 extra-long, 2-meter VHO-RUVA tanning lamps.

The 1600 CFM Transflow ceiling fan maintains the tanning environment at an optimum temperature for maximum comfort. Additional 110 CFM fans, located in each of the four lamp panels, separately cool the internal components including the lamps and ballasts.

The SUN DASH 252-Radius also features two full-length floor-to-ceiling support columns. Constructed of heavy-duty brushed aluminum and securely mounted, they provide solid support for customers of all heights and weights.
